Education

California State University, Long Beach
B.S. in Computer Science

Expected Graduation : **May 2028**
GPA: 3.8

Scholarship: Recipient of BESST Scholarships

Skills

Languages: Python, JavaScript, HTML, CSS, Scratch

Tools: Git/GitHub, Google Drive (Docs, Sheets, Slides), Netlify, Linux, FastAPI, Wireshark, PyCharm, Python IDLE, Raptor, Visual Studio Code, Oracle VirtualBox

Relevant Coursework: Calculus 2, Algorithms, Assembly, Data Structures, OOP, Discrete Math, Computer Architecture, Linear Algebra, System Programming, Operating Systems, Database, UI/UX

Experience

Code Sensei, Code Ninjas | Cerritos, CA

Jan. 2025 – Present

- Taught coding (Python, JavaScript, Scratch, Roblox) to students ages 7–14 with personalized guidance.
- Collaborated with instructors to maintain smooth class operations and a supportive learning environment.
- Adapted teaching for different skill levels, improving communication and leadership skills.

Public Health Informatics and Technology (PHIT) Summer Intern | CSULB

Jun. 2026 – Aug. 2026

- Learned and utilized ArcGIS mapping technologies to analyze spatial demographics and public health informatics datasets.
- Created interactive geospatial maps and layered geographic data to identify regional healthcare access patterns and demographic disparities.
- Integrated spatial GIS findings with health informatics reports, presenting data-driven recommendations for community resource allocation.

Projects

BotOrNotGame | Roblox, Gemini, uAgents

March 2026

- Built an AI system to classify human vs AI-generated responses using Gemini API.
- Developed a Roblox frontend for real-time prompts and feedback.
- Designed multi-agent judges with distinct personalities for evaluation.
- Reduced API calls by consolidating requests (3x efficiency).

HomeNetSafe | Python, Scapy, CustomTkinter

Sept. 2025 – Jan. 2026

- Built a network monitoring tool with ARP-based device discovery and scanning.
- Implemented multithreading and MAC vendor classification.
- Added security features including SHA-256 hashing and access controls.

ISBN Search | Python, HTML, CSS, Google Books API, FastAPI

March 2025 – April 2025

- Built a full-stack ISBN search app using FastAPI and HTML/CSS in 24 hours.
- Implemented ISBN extraction and integrated Google Books API.
- Gained experience in debugging and rapid team-based development.

Club | Extracurricular Activities

Competitor | **BeachHacks 9.0 Hackathon**, ACM, CSULB

March 2026

Competitor | **BeachHacks 8.0 Hackathon**, ACM, CSULB

March - April 2025
